

SC8000iY

GASOLINE GENERATOR

SPECIAL FEATURES

Inverter alternator

Pure wave sine with THD \leq 3%
Output current very steady
Can application for precision machines

Automatic start function by potential-free NO contact

Alternator

99.9% Copper wire alternator
Longer service life

Engine:

EURO V OHV SC460
Engine with high combustion burner efficiency and smaller vibration

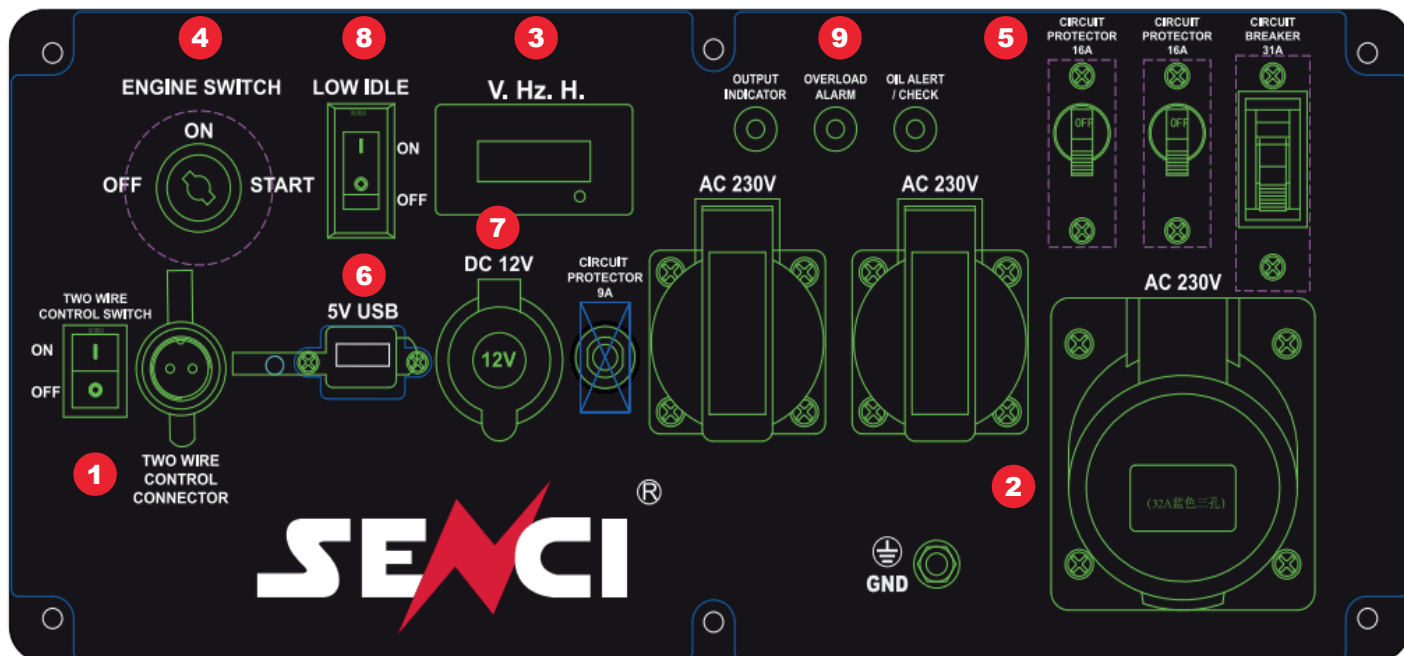

Function:

Overload and over current protection, more safety while using

SPECIFICATION

Frequency	50HZ
Voltage	230V
T.H.D	<3%
AC 230V Máxima / Maximum	8000watt
AC 230V Nominal / Rated	7000watt
Starting type	Recoil -Electric-Automatic by signal contac NA as solar system backup
Number phase	Single Phase
Power factor	1.0
Engine model	SC460
Displacement	459cc
Engine type	Gasolina 4 stroke OHV air cooling
Noise Level (@1/4 load, 7m)	73dB
Fuel tank capacity	25L
Run time (50%-100% load)	13-8h
Oil grade and capacity	1.1L SAE10w30
Insulation grade	H
Wheel kit	9.5"*2
Dimensions	708x560x585mm
Weight	83kg

CONTROL PANEL

1. Two Wire Control Connector & Switch | Automatic by signal contac NA as solar system backup
2. 2*16A + 1*32A Socket
3. Three in One Display (V, Hz, H)
4. 3 in 1 Switch + Key Start
5. 2*16A Circuit Protector | 1*32A Breaker
6. 5V DC Port
7. 12V DC Cigarette socket
8. Low Idle
9. Oil Alarm | Overload Alarm | Output Indicator
